

B ZERO FLOOR

Multi-purpose floor detergent

Professional product for washable surfaces of any type. It is a concentrated product sold in a bottle, to be diluted in water.

It is a water suspension designed to enhance the effectiveness of microfibers, ensuring satisfactory results thanks to the properties of the nanomaterials it contains.

If regularly used for 10-15 days, with microfiber cloth, it enriches surfaces with physical-chemical properties that reduce environmental contamination and bacterial growth. This results in greater cleanliness and sanitization over time.

**PRIVATE
BUSINESSES
CLEANERS**

**BSYSTEMS SERVICES
PROFESSIONAL
TREATMENT**

- » It effectively protects and cleans surfaces in just a few applications.
- » It sanitises and makes surfaces anti-bacterial.
